OBJECTIVES AND PURPOSE OF DOG PROJECT

The dog project is an excellent tool for character development of youth. Training a dog teaches one to have patience, persistence, to speak clearly in short concise statements, and to realize the value of work. Learning to care for a dog teaches one to be responsible, take pride in ownership, to make decisions, and to learn about behavior.

JUNIOR FAIR EXHIBITION: All small animal projects must be in place by 6:00 p.m. Entry Day. No small animal projects are permitted to leave the fair until 9:00 p.m. Monday, or premiums and trophies will be forfeited. Member may also be disqualified from exhibiting the following year. Only exceptions will be animals showing health problems, which must be approved by the committee, Junior Fair Management and the fair veterinarian.

- Any protests or discrepancies should be discussed with the Committee and Junior Fair Management.
- Small & Exotic Animal Committee has highly recommended that all youth planning to exhibit their animals at the Junior Fair attend a session on Sportsmanship or view the video on Sportsmanship at a countywide event or club meeting.
- No animal projects will be permitted on the fairgrounds without proof of a Health Check on Entry Day.

PLEASE NOTE: All members must follow Small & Exotic Animal Guidelines & General Junior Fair Guidelines.

2. Each first year member or a member with a new dog must participate in a Pre-Fair Agility Test to ensure that the dog is ready to participate in the Mahoning County Junior Fair Dog Show. Testing will be completed to determine proper showing level, height, and showing off or on lead.

4. Collars must adhere to the show guidelines listed previously. Harnesses are recommended for dogs running on leash.
5. Leads must be 6 feet long and made of leather or nylon. Leashes must be used in a safe, kind manner. It is the handler's responsibility to manage the leash in a safe manner. For example, the handler must lift the leash over the jump standards, keep the leash out of the way on contacts, and release the leash when the dog goes through the tunnel. Handlers will be excused if the judge feels the leash is being used in an unsafe manner.
6. Handlers may not jump the hurdles with the dog.
7. Handlers may not touch the dog or obstacles while running the course.
8. Handlers may use voice commands, hand signals, or both. Handlers are encouraged to talk to their dogs through the course, cheer their dogs during the run, and offer other verbal praise. Only level appropriate contacts will be performed. The judge may also allow the handlers to have their dogs perform one jump and/or tire and weave poles, if they are offered in the course.
13. "Four Paws Rule:" The handler will be asked to move on to the next obstacle if their dog commits to a contact obstacle with all four paws then jumps off, falls off, etc.
14. In the exhibition, an exhibitor must score at least a 75 to receive a placement ribbon. A score of anything less will merit a participation ribbon.

PIPE TUNNEL: The dog must enter the opening to the tunnel in the direction designated by the judge and exit the other end of the tunnel.

PAUSE TABLE: The dog must jump onto the table. Depending on the level the dog may have to sit, or down, and may have to remain in this position for a count of 3 – 5 seconds.

A handler/dog team must correct for any missed poles, and fully complete the weaving pattern.

The plank shall touch the ground prior to the dog leaving the plank. The dog must be in control of the plank.

AGILITY GAME CLASSES

Just Tunnels is a numbered course made up of tunnels (no jumps or contacts). This game is a test of speed and handling ability. Course design will be the same for both on lead and off lead classes.

Over, Under and Through is a numbered course made up of contacts, tunnels and tires. The game tests reliable contact performance at a fast pace. Course design will differ slightly between on lead and off lead classes to allow the teeter to be used for more advanced dogs.

Jumpers is a numbered course of jumps and tunnels (may add tire). This is a class which measures the dog's ability to jump and turn and the handler's abilities while the dog is moving at a fast pace. Course design will vary slightly from on lead and off lead classes to allow for a more challenging course for advanced dog/handler teams.

Gambler Class is a course with no pre-determined route and each obstacle is assigned a point value. In the 'opening' period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion, the handler attempts a finishing sequence as designated by the judge.
