DARREL BACON MEMORIAL GAZEBO

The Darrel Bacon Memorial Gazebo was built as a tribute to our friend Darrel Bacon, who had dedicated so many years to the 4-H and Junior Fair Programs. He made his last journey to the 2001 Junior Fair, and upon this visit, asked that we have a plaque made with the following inscription:

The Mahoning County Junior Fair is the result of the combined efforts of many dedicated volunteers working together to make the Best Junior Fair Even Better. Thank You For Your Efforts ! Darrel Bacon

Darrel Bacon passed away in the fall of 2001. His dream was to make the Best Junior Fair Even Better with each passing year and strive to offer a program for the youth in Mahoning County where they could find education, develop leadership, but most of all “Have Fun.”

We hope the gazebo will help us all remember a man of few words, but a man with a big heart, and with a dream that will continue to live on in the Best Junior Fair Ever.

Building donated by Hemphill & Sons Construction
Designed by David Harris, Jr.
Sponsors listed on plaque in Gazebo

A scholarship fund has also been established in Darrel Bacon's honor and is administered by the Mahoning County Youth Agricultural Association.

Donations can be made directly through Farmer's National Bank.

MAHONING COUNTY FARM BUREAU

Ohio Farm Bureau is a grassroots membership organization that works to support our state's food and farm community. Mahoning County Farm Bureau was formed to promote the business needs of farming in general through educational and other means and to aid in the betterment and welfare of those engaged in farming.

FUTURE FARMERS OF AMERICA

FFA is a school based organization open to girls and boys in grades 9-12. These youth gain experience in crops, livestock, and farm maintenance. Experience in leadership is gained though public speaking, and parliamentary procedure. A vocational agriculture project in livestock, crops, or work experience is required as the student studies in a learn-to-earn situation. FFA provides an educational booth in the Junior Fair Building #25.

4-H is the nation's largest positive youth development and youth mentoring organization offered through a cooperative relationship between land-grant universities, the USDA, and local communities. 4-H programs seek to empower our young people, developing their sense of citizenship, leadership, responsibility for self and others, and a variety of life skills that will support them into adulthood. Our mottos are "to make the best better" and "learn by doing."

Mahoning County General 4-H Information

1. Eligibility for 4-H membership begins with the Cloverbud program, when youth are both 5 years old and in kindergarten by January 1 of the current year. Youth can begin participating at the club level when they are both 8 years old and in third grade, or 9 years old by January 1 of the current year. Members age out of 4-H when they have reached 19 years of age by December 31. To join 4-H, a youth must enroll in a county club by March 15 of the current year. All 4-H members must enroll in at least one 4-H project per year. The deadline for project enrollment is also March 15.
2. All 4-H clubs and programs are overseen by approved volunteers who have completed an application, interview, and background check process.
3. Ohio 4-H offers a wide range of projects, each with a corresponding project book. Youth can and should choose those projects that most interest them. Projects include: cooking, sewing, gardening, livestock, small pets, outdoors, technology, woodworking, shooting sports, arts, writing, health, beekeeping, rocketry, small engines, and much more. Youth also may choose to enroll in a self-determined project of their own choosing, under the guidance of a club advisor.
4. While some projects are structured to be taken over multiple years, most projects are not. If a 4-H member chooses to repeat projects (including livestock projects) the club advisors should work with the youth to ensure that supplemental activities and requirements are being added to increase the youth's knowledge level each year.
5. Parents and club advisors both play an active role in the 4-H program. Advisors help communicate information about county project requirements, Canfield Junior Fair requirements, Ohio State Fair Requirements, etc. Parents and advisors work together to assist youth in ensuring that they are working towards completion of their projects, and finding any necessary resources required for project completion.

Mahoning County 4-H Youth Participation in Junior Fair

1. 4-H members are not required to participate in the Mahoning County Junior Fair, though they are encouraged to do so. Specific requirements for Mahoning County Junior Fair participation are outlined in the Mahoning County Junior Fair Guidelines. **These requirements supersede any county or state requirements.** Projects will be housed in the best available space, as determined by the Senior Fair Director in charge of Junior Fair and the Manager of Junior Fair. Projects must be in place by 6:00 p.m. on the fair entry date (or as specified), and will be released at 9:00 p.m. on Monday after close of the fair.
2. Completion of the 4-H project is required for the project to be exhibited at Junior Fair. 4-H project completion requires a completed project book from the current year (youth may not re-use books from prior years); a completed record book from the current year (if required); completed supplemental activities or requirements, as were determined at the onset of the project; appropriate attendance at and participation in club meetings; and a positive attitude.
3. Requirements for self-determined 4-H livestock projects must be approved by the 4-H Educator, Junior Fair Sub-Committee, Manager of the Junior Fair, and Senior Fair Director in charge of the Junior Fair.
4. 4-H members who exhibit a still project at the Junior Fair will be paid a cash premium of \$1.00 for each project exhibited.

5. In the event of the death of a 4-H member's livestock project animal, the youth may request a change in project. The change in project must be approved by the 4-H Educator, the Manager of Junior Fair and Junior Fair Sub-Committee.

OBJECTIVES AND PURPOSE OF DOG PROJECT

The dog project is an excellent tool for character development of youth. Training a dog teaches one to have patience, persistence, to speak clearly in short concise statements, and to realize the value of work. Learning to care for a dog teaches one to be responsible, take pride in ownership, to make decisions, and to learn about behavior.

JUNIOR FAIR EXHIBITION:

1. All small animal projects must be checked in on Entry Day by 8 p.m.
2. All small animal projects must follow the Junior Fair and Small & Exotic Animal Committee guidelines while participating in Junior activities and in the Junior Fair Show.
3. Any protests or discrepancies should be discussed with the Committee and Junior Fair Management.
4. Small & Exotic Animal Committee has highly recommended that all youth planning to exhibit their animals at the Junior Fair attend a session on Sportsmanship or view the video on Sportsmanship at a countywide event or club meeting.
5. No animal projects will be permitted on the fairgrounds without proof of a Health Check on Entry Day.

PLEASE NOTE: All members must follow Small & Exotic Animal Guidelines & General Junior Fair Guidelines.

DOG PROJECT GUIDELINES

The committee highly recommends attending more than the required meetings. Training session requirement must be met by the County Junior Fair Show. Make-up training sessions must be arranged and approved by advisors.

10. **Hardship Case:** A hardship case is defined as a situation that is beyond the control of the youth member which must be reviewed by the Dog Committee and presented to the Small Animal Committee for approval. This may include but may not be limited to an illness or death of a dog, inability of a child to own a dog, a dog that replaces the original dog after the deadline. Hardship cases will be considered Exhibition Only – allowing the dog to be exhibited in events but not compete. The Committee must determine which events the dog can exhibit in safely.
11. **Dogs in season are not permitted** to compete. If the dog shows signs of heat, she will be eliminated from the show and must leave the premises. If a dog appears attractive to male dogs, the Dog Committee and Small Animal Committee representatives will decide the status of the dog. YOU & YOUR DOG

Occasionally a family may have two children interested in dog projects, and only have one dog. It is important for a child and a dog to have a bond and train together in preparation of most dog events. The You and Your Dog project is an exploratory project that's focus is more about animal care, animal welfare, and dog related learning experiences that it is about training to perform. **Siblings are allowed to share a dog in the You and Your Dog class.** Both siblings can take the dog in You & Your Dog. However, only one child may take the dog in performance events. Youth would need to designate which child will be working with the dog in these performance events at the beginning of the year. Dogs cannot be shared in obedience, showmanship, performance or working events.

1. Youth must be enrolled in project # 201D, You and Your Dog.
2. You and Your Dog classes are based on the age of the youth. Therefore, an exhibitor and dog can show in ONE You and Your Dog class only. Youth may show the same dog or different dog in any other disciplines/classes provided they meet those eligibility requirements.

MAHONING COUNTY DOG AGILITY

This program is offered for youth ages 8 and in the third grade to 18 as of January 1 of the current year. Three progressive levels of competition are offered to foster advancement in training and to provide recognition for junior handler accomplishments in dog agility. . In Mahoning County, these levels may be divided according to youth's and their dog's experience, and ability level. Classes will also be divided according to the size of the dog. Each level will have the following Class Divisions according to jump height:

4" – 8" On Lead

12" – 16" On Lead

20" – 24" Off Lead

The levels are:

Level 1: Dogs may compete on or off leash with approval of the club advisor. The obstacle course shall be comprised of 10 obstacles: A-frame apex at 4'6", table set at 12" for all jump heights, pipe tunnels, and six hurdles. The standard course time is 60 seconds. Dogs competing on leash may only jump a maximum of 16". These dog/handler teams should have at least one-year experience in agility. Handler and dog may advance after 2 scores of 95, but must advance to level 2 after 3 scores of 95.

Level 2: In the Mahoning County Junior Fair demonstration, teams may choose to show on or off leash for safety purposes. The same obstacles and related modifications shall be used as in Level 1, except the A-frame shall measure 5' at the apex.

In a secure location dogs should compete at this level off leash but may use a snap collar with no tags. These dog/handler teams should have at least one-year experience in agility. Handler and dog may advance after 2 scores of 95 but must advance to level 3 after 3 scores of 95.

Level 3: Course shall include 12 – 14 obstacles: A-frame set at 5'6", dog walk, pipe tunnels, 5-6 weave poles (optional), table set 12"-16", long jump, tire jump (optional), 4-6 hurdles. Course standard time is 75 seconds. Level 3 requires the dog to run off lead.

Please Note: Classes may vary depending on the number and experience of participants. Class changes will be determined by the committee.

MAHONING COUNTY DOG AGILITY GUIDELINES

- 1. Each member must attend a minimum of 8 agility training sessions (more would be recommended) in order to show at the Mahoning County Junior Fair Dog Show.**
- 2. Each first year member or a member with a new dog must participate in a Pre-Fair Agility Test to ensure that the dog is ready to participate in the Mahoning County Junior Fair Dog Show. Testing will be completed to determine proper showing level, height, and showing off or on lead.**
3. Training aids, treats, and toys will not be permitted on course during competition or familiarization.
4. Collars must adhere to the show guidelines listed previously. Harnesses are recommended for dogs running on leash.
5. Leads must be 6 feet long and made of leather or nylon. Leashes must be used in a safe, kind manner. It is the handler's responsibility to manage the leash in a safe manner. For example, the handler must lift the leash over the jump standards, keep the leash out of the way on contacts, and release the leash when the dog goes through the tunnel. Handlers will be excused if the judge feels the leash is being used in an unsafe manner.
6. Handlers may not jump the hurdles with the dog.
7. Handlers may not touch the dog or obstacles while running the course.
8. Handlers may use voice commands, hand signals, or both. Handlers are encouraged to talk to their dogs through the course, cheer their dogs during the run, and offer other verbal praise. There is no penalty for multiple commands or verbal encouragement, but all must be in the name of good sportsmanship. Handlers are encouraged to praise the dog after crossing the finish line.
9. Courses will have clearly designated start and finish lines.
10. Obstacles must be no closer than 10' apart.
11. Handlers will be asked to go on to the next obstacle if their dog refuses three times in a row. The exhibitor will not be faulted for refusals.
12. A familiarization period will be allowed prior to the start of the classes, if time permits. During this time, handlers will be able to have their dogs perform each contact once. Only level appropriate contacts will be performed. The judge may also allow the handlers to have their dogs perform one jump and/or tire and weave poles, if they are offered in the course.
9. "Four Paws Rule:" The handler will be asked to move on to the next obstacle if their dog commits to a contact obstacle with all four paws then jumps off, falls off, etc.
10. In the exhibition, an exhibitor must score at least a 75 to receive a placement ribbon. A score of anything less will merit a participation ribbon.

OBSTACLE PERFORMANCE REQUIREMENTS

A-FRAME: The dog must ascend the up ramp in the direction designated by the judge, cross over the apex, and descend the down ramp, touching the safety contact zone before leaving the obstacle.

PIPE TUNNEL: The dog must enter the opening to the tunnel in the direction designated by the judge and exit the other end of the tunnel.

PAUSE TABLE: The dog must jump onto the table. Depending on the level the dog may have to sit, or down, and may have to remain in this position for a count of 3 – 5 seconds.

JUMPS/HURDLES: The dog must jump over the hurdle in the direction designated by the judge, crossing between the hurdle's two supports and over the pole or planks without knocking off the top bar or plank.

DOG WALK: The dog must ascend the ramp in the direction designated by the judge, traverse the cross plank, and descend the other ramp, touching the safety contact zone.

TIRE JUMP: The dog must jump through the tire in the direction designated by the judge. A dog may touch the tire with its feet.

WEAVE POLES: The dog must weave in and out in a continuous motion down the complete lines of poles. The dog begins by passing on the right side of the first pole, crossing the line of poles between pole number 1 & 2, then pass the left side of pole number 2, then crossing the line of poles between 2 and 3, and continuing in a sequence down the complete line of poles. A handler/dog team must correct for any missed poles, and fully complete the weaving pattern.

LONG JUMP: The dog must jump over the planks without touching them; crossing between the front corner marker poles in the direction designated by the judge, clear the span of the planks and exit between the back-corner marker poles.

TEETER/SEE-SAW: The dog must touch the safety contact zone while ascending the see saw, cross the plank's pivot point, causing the see saw to tilt to the ground on the other end, and descend the remainder of the plank, touching the safety contact zone before leaving the plank. The plank shall touch the ground prior to the dog leaving the plank. The dog must be in control of the plank.

AGILITY GAME CLASSES

Just Tunnels is a numbered course made up of tunnels (no jumps or contacts). This game is a test of speed and handling ability. Course design will be the same for both on lead and off lead classes.

Over, Under and Through is a numbered course made up of contacts, tunnels and tires. The game tests reliable contact performance at a fast pace. Course design will differ slightly between on lead and off lead classes to allow the teeter to be used for more advanced dogs.

Jumpers is a numbered course of jumps and tunnels (may add tire). This is a class which measures the dog's ability to jump and turn and the handler's abilities while the dog is moving at a fast pace. Course design will vary slightly from on lead and off lead classes to allow for a more challenging course for advanced dog/handler teams.

Gambler Class is a course with no pre-determined route and each obstacle is assigned a point value. In the 'opening' period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion, the handler attempts a finishing sequence as designated by the judge.

DAIRY GUIDELINES

1. All youth planning to exhibit Dairy Cattle at the Mahoning Co Jr Fair must have attended at least 4 Dairy Club meetings, one being the MANDATORY Dairy Skillathon meeting in July. Meetings are held the third Wednesday of the month (unless otherwise noted) from February thru July. A folder with all of the information for the year will be passed out to each family unit at the February meeting. For those who are unable to attend the meeting in July (eg. Camp, Family vacation), a makeup time will be scheduled at a later date. LACK OF ATTENDING 4 MEETINGS WILL RESULT IN NOT BEING ABLE TO EXHIBIT IN THE JR FAIR, AND NOT PARTICIPATE IN THE CHEESE SALE.
2. Requirements for project work and fair exhibitors shall be set by the number of years of membership in the Dairy Project as follows:
 - A. First Year - 1 Calf
 - B. Second Year - 2 animals (Calf and/or Yearling Heifer - NO COW)
 - C. Third Year & Up - Exhibit 5 animals total: Calves, Yearling Heifers and/or Cows.
3. Only high grade or purebred animals may be shown at the fair. Animals showing mixed breed characteristics may not be shown.
4. All animals will be shown by the individual member carrying the project, except for Champion classes at which time the animal may be shown by another member if the owner/leasee has multiple animals in that Champion Class. Members attending College or on Royal Court must request permission from the Dairy Committee, for another member to show their animals.
5. If an animal is not owned by the 4-H exhibitor (clearer definition under Lease Requirements), a Lease Contract must be signed. More lease information is listed under Lease Guidelines in this paper. The Lease papers must be submitted to the committee.

- by June 1. Absolutely NO late or incomplete papers will be accepted.
6. Entries are due by the Mandatory Meeting in July. Entries are filled out online via ShoWorks by midnight August 1. If the animal is registered, a copy of the registration paper MUST be uploaded with the entry. IF THERE IS NO REGISTRATION PAPER UPLOADED AND THE REGISTRATION IS NOT “PENDING”, THE ENTRY IS NOT CONSIDERED COMPLETE. If registration is pending, a copy of the registration paper, once it is received, must be given to a committee member in charge of entries prior to, or at check-in. If the animal is not registered, then it is considered a grade animal and there is no registration paper to upload. Absolutely NO late or incomplete papers will be accepted.
 7. Each member MUST work a shift at the Milk-a-Cow. Sign up will be at the June or July meeting. Schedule will be posted in the barns at the fair. Schedule changes must be handled by the Milk-a-Cow sub-committee chair.
 8. Mandatory 4H Dairy Project books must be turned in at the Mandatory meeting in July. The Mandatory Project books will consist of various educational items. The folder that you receive at the beginning of the year has your Project Book in it. Although the folder CONTAINS your Project Book, the whole folder SHOULD be considered your project book as it contains any information/important papers you will need throughout the year. DO NOT LOSE THE FOLDER and it is HIGHLY RECOMMENDED to bring it to each meeting. EACH FAMILY UNIT WILL RECEIVE 1 FOLDER.
 9. If purchasing an animal from an outside source (individual or sale), the registration papers must be transferred to the youth, sibling, parent or grandparent by June 1st, and the animal must physically be in their possession. A copy of the transferred Registration Paper is required when entering the animal in July.
 10. Youth must attend an accepted Quality Assurance Program (along with a Parent/Guardian) or an equivalent QA program, such as Dairy Palooza.
 11. Exceptions to attendance are as follows:
 - a) If youth is a member of the Dairy Quiz Bowl Team & have completed at least one year of competition.
 - b) If youth is attending College or Technical School, and have completed 5 consecutive years of Dairy Projects prior to attending College or Technical school.
 - c) Once one of these above prerequisites are met, youth must only attend QA and attend the mandatory meeting in July. All other meetings are recommended but not required.
 12. If a problem arises with an animal after entry sheets are completed, switches WITHIN the same BREED and CLASS are allowed. No late changes will be allowed once entry sheets have been turned in at the July mandatory meeting unless an animal has died or cannot be shown at the fair due to an illness.
 13. If the animal is co-owned with another 4Her in another county, both 4Hers may show the animal in their respective 4H county separately as a 4-H project. This rule is exclusive to co-ownership and applies to registered calves & heifers only. No cows will be allowed to be shown by two different youth in two different counties under any circumstances. One youth equals one cow.
 14. Any Dry Cow that freshens prior to or at fair will move into the appropriate milking class.
 15. A separate social media policy will be enforced. ABSOLUTELY NO NEGATIVE SOCIAL MEDIA POSTS WILL BE TOLERATED..
 16. ALL RULES AND GUIDELINES are at the discretion of the Dairy Committee for any and all Mahoning County Junior Fair Dairy Projects shown at the Canfield Fair.

2026 LEASE REQUIREMENTS AND GUIDELINES

1. Lease papers will not be required for the Mah Co Jr Fair for an animal or animals owned by a Herd Unit or a Farm Unit that a youth is a member of. The family/extended family of the youth (i.e. great grandparents, grandparents, aunts, uncles, cousins, nieces, nephews, and all immediate family) are defined as the herd unit. If the herd unit is listed as the owner of the animal(s) no lease

Paper is required. However, if there are any other names listed on the registration paper in partnership with the herd unit, then a lease paper is required for the youth to exhibit the animal(s) at the fair. If the youth does not own the animal, or meet any of the above affiliation to Herd Unit or Family Unit, then a Lease paper is required.

2. Lease papers will be due on June 1st and uploaded onto ShoWorks. The ShoWorks window will close June 1st at 12 Midnight. The lease will run from June 1st until the end of the Mahoning County Fair on Labor Day. Absolutely no late lease papers will be accepted. All lease rules are listed here, under lease requirements. They are not necessarily listed on the lease paper that the youth and the owner of the animal sign.
3. There will be a maximum of three leased animals per youth. The youth is then also able to take two additional animals that they own for the maximum of five animals to be shown as 4-H projects.
4. There is a maximum of two breeders that a youth can lease animals from. The second breeder must be approved by the Dairy Committee.
5. Leased animals must be entered, exhibited and shown ONLY by the youth leasing the animal, during the lease period at any other Junior Show, anywhere. Meaning no other youth may show the leased animal at any other Junior Show during this time period. This includes any other County Fair, District Breed Show and Ohio State Fair and any other Junior Shows.
6. If the leased animal will be shown in open class at the Canfield Fair, the leased animal must be entered, exhibited and shown only by the youth leasing the animal. The leased animal must be entered, exhibited and shown in the 4Hers name or their immediate families name only. The owner of the leased animal cannot enter, exhibit and/or show the animal, in open class, at the Canfield Fair for the year the animal is leased. The owner of the leased animal can show the animal at any other Open Show, except the Canfield Fair.
7. In event the 4Her is unavailable to show the leased animal in the Open Show, another Mahoning County 4Her or immediate family member may show the animal.
8. A copy of the leased animals Registration papers will be provided to Dairy Committee when the lease agreement is turned in via ShoWorks.
9. These lease requirements and guidelines are at the discretion of the Dairy Committee.

4. Youth will be judged on their abilities: showing of the animal, knowledge of anatomy, and pedigree.

8. The winners of each of the age categories will compete in the Showman of Showmen. Last years winner will not automatically return to compete for the award of Showman of Showmen as it has been done in the past. They will compete in their respective age group.

5. Cow on official test shall be evaluated on ME (Mature Equivalent) 305 days. If a cow is fresh less than 45 days before opening day of the fair, the last ME (Mature Equivalent) 305 days will be used for evaluation.

JUNIOR FAIR EXHIBITION

1. Any exhibitor entered in the Junior Fair Show who is not planning to exhibit must contact Junior Fair Management two weeks prior to Entry Day of the Junior Fair. (Veterinary excuse and/or an emergency will be the only exceptions.) Exhibitors not canceling their Saddle Horse entry and not exhibiting their Saddle Horse entry in the Junior Fair may not be eligible for participation for the following year, and the club will also be penalized with stall assignments.
2. Exhibitors must check in at the Junior Fair Office before unloading their project.
3. All Saddle Horse exhibitors in the Junior Fair **MUST PARTICIPATE IN 4-STATION GRADING AS WELL AS PERFORMANCE GRADING.** Exhibitors not participating in the required grading activities, without previous permission for make-ups from the MSHC and the Junior Fair Management, will not receive their premium, not be permitted in Championships and may be prohibited from Junior Fair Exhibition the following year.
 - a) 4- Station Grading - 4-Station Grading has been available to complete at the August MSHC Show. Youth not completing at this show, must complete during the time offered during the Junior Fair Show.
 - b) Performance Grading - The judge will determine if patterns will be used in performance grading classes. The patterns will be determined by the judge. To help expedite the process on the performance grading, ground work/rail work, broken into age groups and disciplines may be an option. Riders will exhibit both directions of the arena, stop, reverse and back up at least. This will determine the ability to control the horse project.
4. Exhibitor may only show one Saddle Horse Project animal in the Junior Fair Show.
 - a) Exhibitor must show the project listed as of June 1, which is documented on the Horse ID Record kept on file by the Mahoning County Junior Fair. The only exceptions are those project changes approved by the MSHC.
 - b) Youth showing an equine at the fair, may also participate in Ground Roping.
 - c) Ground Roping exhibitors do not need to exhibit a horse at the fair.
5. Horses and ponies should not be exhibited if the exhibitor knows their animals is infected or has been exposed to any dangerous, contagious, or infectious disease. Horses showing health problems upon check-in may not be permitted to exhibit in the Junior Fair Show. The Fair Veterinarian, Junior Fair Management, and a representative of the MSHC may determine that a horse is not in condition to be exhibited and may request the horse be removed from the fairgrounds. It is highly recommended, but not required, that horses being exhibited have current vaccinations.
6. No stallion over one year (actual age) will be exhibited in the Junior Fair.
7. Championship Classes: To participate in the Championship Classes, you are required to have a

minimum score of “B” combined. We will add 4 Station Grading and Performance Grading together to arrive at final grade.

8. Neither the Mahoning County Agricultural Society, or any youth organizations involved in the Junior Fair and their volunteers assume responsibility for exhibits or projects, including livestock, any article lost or stolen, or any injury during the fair, or any damage to person or possessions on the grounds, or the neglect of any exhibitor, patron, or employee, nor provide liability insurance to cover the exhibitor or livestock.

NEAT AND CLEAN by 8:30 AM: Each project animal, the entire stall, and/or the area behind each horse must be completely cleaned each day during the fair before 8:30 am. Each horse must be fed and watered on a regular schedule. Each horse must be cleaned periodically throughout the day. Spot checks will be made during the fair. The exhibitor is also responsible for the clean-up of their animals as it is moved from the stall to show area. If there is a concern about an animal, the MSHC or Junior Fair Representative has the right to enter and check the animal and stall as needed. If the animal is not being cared for properly, as described above, then two warnings will be given. The third warning will be considered animal neglect. Refusing to follow the guidelines may cause the exhibitor to be barred from future participation in Junior Fair activities. Also, refer to “Exhibitor Only Policy” listed below.

VETERINARY CARE: Any veterinary measures requested by the owner to maintain animal health are the financial responsibility of the owner. Each youth showing Saddle Horse must have a Permission to Treat. Form on file to provide permission for emergency treatment for your animal. All non-emergency veterinary treatment requested must be submitted through the Junior Fair Office and will be recorded at the Junior Fair Office for the veterinarian on call as they make their rounds. The Permission to Treat Form will be available at Junior Fair Check-In.

JUNIOR FAIR STALL ASSIGNMENTS

Stall assignments are based on a rotation. We must give each club the same opportunity. If youth will not be exhibiting at the fair, Junior Fair Management must be notified immediately. If a club does not notify Junior Fair Management of youth not exhibiting and extra stalls are not turned in, the club will be penalized one box stall for each stall not turned in the following year. ALL extra stalls will be reallocated to make the best effort to be fair to everyone and to provide additional tack space.

1. Clubs are to use stalls assigned. Please accept stall assignments as posted. Stall assignments may be altered by the Junior Fair Management if stalls have been reallocated due to stalls being turned in. Do not move your animal into another stall without approval from MSHC and the Junior Fair Manager.
2. Tack stall space, if any, will be limited so tack stalls are to be shared with other clubs in your area if needed.
3. One box stall must always remain available for use by the veterinarian. Assigning stalls is a difficult task to accomplish. All livestock must be accommodated within these assignments. Special requests may be submitted, but assignments can only work with the space available.
4. Please do not make any alternations to the stalls without consulting Junior Fair Management. This will include your assigned tack stalls.
5. Each individual club must have their own system to determine the allocation of box stalls within each club.

DECORATIONS AND STALL SAFETY: With our new location, stall decorations may be at a minimum, so please follow the guidelines as they become available. No fair decorations can be placed before the Friday prior to the fair since stall assignments may not be finalized. All decorations are to be in place by Sunday evening prior to Entry Day, if any decorations are used this year. No permanent fencing should be pounded into the ground. Fencing/decorations must be able to move in case of emergency.

- ◆ Absolutely no white paint shall be on natural wood.
- ◆ No free-standing mirrors, or glass of any kind in decorations or photographs in displays. Use plastic.
- ◆ No crocks or glass pottery of any kind may be used in decorations.

- ◆ Be considerate in using chairs, benches, etc. in the space available. Be willing to share space.
- ◆ No cots, tables, outdoor furniture, etc. can be placed to obstruct the aisles.
- ◆ Tack boxes are to be used for tack and decorations. Do not sit on them.
- ◆ No doors or gates are to be added to change stalls. Any such addition must be preapproved by Junior Fair Management.
- ◆ Stall guards are permitted for safety issues, not be used for containing an animal.
- ◆ Please check the stalls for safety such as nails, sharp objects, etc. The sharp edges on the screws may be rasped down carefully.
- ◆ Please do not cover the upper sections of stalls. If a problem exists with two horse side by side in the box stalls, switch stalls with another member of your club or notify MSHC and/or Junior Fair Management about the situation. If the upper portion of the stall covered, this will cut off the air circulation throughout the barn.
- ◆ Hay bags may be used in the box stalls if secured safely. Feed tubs and buckets should be secured safely.
- ◆ Tack boxes should be kept flush with the stall wall.
- ◆ Oversized tack boxes that block the aisles will be considered a hazard and moved to the tack stall area.
- ◆ Youth should be careful opening and closing stall doors. Stall doors should be closed and locked when not in use.
- ◆ In case of emergency and for safety, horses must always have halters on while in the stall.

TACK BOXES: Because of the new location tack boxes will be limited in certain areas. Youth with oversized tack boxes may use them but may need to have them placed in special locations during the fair. Stall assignments will not be based on the size of a club's tack boxes.

CANOPY RULES:

Because of space and adjusting to our new location, there will be no canopies in the Junior Fair area.

STALL BEDDING: Sawdust will be provided by the Senior Fair Board for Saddle Horse Stalls. The Junior Fair representatives will place the first base of sawdust in the stalls. Exhibitors must share sawdust, so be considerate. Sawdust should be hauled into stalls the weekend prior to fair week to eliminate covering fair decorations with dust. If you club prefers straw, this will only be provided upon request. Make sure to mark this with your club entry forms.

HAY, AND GRAIN: The Fair Board will provide hay which is to be shared to help prevent storage and shortage. Please do not use more hay than needed. Hay will not be provided on Tuesday, Entry Day, so bring enough hay to feed your horse the first day. Hay will be provided on Wednesday. Each club is required to request hay on a sign-up sheet at MSHC Office. If your horse requires special hay, you are welcome to bring your own. Youth participants must supply all grain and other supplements.

SADDLE HORSE GENERAL AREA SAFETY: Safety is important. Be conscientious. The Fair Board and MSHC do not have insurance to cover you or your animal.

- ◆ Electrical appliances are to be used in approved areas only. **Do not use cooking appliances, refrigerators, etc. in the Junior Fair barns and areas.**

JUNIOR FAIR EMERGENCY SITUATIONS

Please try to be calm in emergency situations. Please do not be tempted to use your cell phone. Emergency Procedures will be posted. For both people and animal emergencies, we do have procedures to follow. Please report emergency situations to the Junior Fair Office, or contact a Committee person in your area. In the Saddle Horse area, you may contact the Saddle Horse Office. Ambulance & First Aid are located on the fairgrounds, and the veterinarian is on call at all times. Do not dial 911. Do not call the veterinarian direct. We have direct phone lines to contact both. By reporting the emergency immediately, this will alleviate cross communications and confusion in providing emergency assistance. Any veterinary measures requested by the owner are the responsibility of the owner. In absence of the owner, if a veterinary emergency should arise, the committee will first attempt to contact the owner of the animal, then a club advisor/member; however, if necessary, the committee reserves the right to contact a veterinarian; and the care provided will be the responsibility of the owner.
